3. Applications

Evapo-Rust® is a highly powerful rust remover with a wide application range. The rusted metal needs to be soaked in the rust remover liquid. As rust is all around us, various applications can be found in the industry, the automotive and the consumer market.

CRC EVAPORUST

4. Directions

1. Pre-clean item if it is dirty or oily.
2. Rinse item thoroughly and completely immerse item in EVAPORUST®.
3. Continue soaking until all rust has been removed, deeply rusted items will require extended soak times. Depending on the severity of the rust, it is recommended to let the rusted item soak for 6 to 24 hours.
4. Once rust is removed, rinse item with water and dry.
5. For optimal results protect your item with a CRC anti corrosion product or a paint.

Remarks:

- EVAPORUST® can be used at temperatures below 15°C but cleaning times will be extended.
- Warmer temperatures (up to 50°C) will improve rust removal capabilities.
- Store cool (above 0°C) and dry.
- Total Rust Removal = 1L will remove around 50g of dried rust.
- All used (and unused) product should be considered as non-hazardous wastewater. Check local regulations on drain disposal.

5. Typical product data

Basis:	Water Based Neutral Solution
Colour:	Clear to yellow
pH:	5 - 6
Flashpoint:	No flashpoint

6. Packaging

- 33399 Bulk 1 liter
- 33400 Bulk 5 liter
- 33401 Bulk 20 liter

Technical Data Sheet

CRC EVAPO-RUST

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

This Technical Data Sheet may already have been revised at this moment for reason such as legislation, availability of components and newly acquired experiences. The latest and only valid version of this Technical Data Sheet will be sent to you upon simple request or can be found on our website: www.crcind.com.
